There are four women within a 6-person membership of the Comarch S.A. Supervisory Board. All seven members of the Comarch S.A. Management Board are men, which is mostly the result of the nature of the activities conducted by the company and the specification of the IT branch, where men constitute a significant majority. It is noteworthy that current members of the Management Board in Comarch S.A. are persons related to the company for many years (at least 3 years as management board members) with broad IT technology knowledge and with high qualifications necessary to their held posts. Having that in mind one should assume that in the nearest future there will be no change in women's membership in this management body.

In Comarch S.A. there is a bias towards increasing the number of employed women, qualifications are considered the most important, not gender, as men have equal chances to be employed for the post. Women constitute approximately 28% of Comarch S.A. employees, and 21% of executive posts, which is a high share in total employment, especially considering the technical nature of the IT company.
