

A comprehensive solution for customers and advisors designed specifically to support all banking, investment and advisory operations.

**\*one solution**  
integrating **multi-channel**  
customer service,  
communication and marketing

**\* investment advisory**

for your clients

- > Provide your clients with **day to day banking** functionality
- > Let them **review their asset** through various perspectives:
  - > Asset classes
  - > Investment objectives
  - > Perspective of assets and liabilities
- > Enable your customers to make **assets reallocation** or investment objectives definition **on their own** (i.e. stock or funds orders)
- > Let your clients access their assets through **www** and **mobile channels**
- > Enable your client to order asset allocation changes or investment objectives redefinition **by personal advisor**
- > Provide additional services as **valuation of external assets** by personal advisor (i.e. real estate, arts)
- > Enable easy multichannel communications with personal advisor (including **video channel communication**)
- > Provide clients with **applications** for additional finance (i.e. loans)
- > Provide clients with investment portfolio **reporting**

- > Provide your employees with **customer relationship management** and **client portfolio management tools**
- > Enable **multichannel** personal communications with the client
- > Support for **investment advisory process** (client profiling, financial planning, optimal asset allocation and investment objectives monitoring)
- > Flexible **loan processing** with time and resources reduction
- > Enable your employees to present customers online investment scenarios or portfolio position through **video channel in graphical form**
- > Ensure your employees will be provided with all required and up to date information on customer being served through **360View**
- > Provide client advisors with client transactional service
- > Give advisors access to knowledge center and documents through **www** and **mobile devices**

for personal advisors

**\*over 100 satisfied clients** in banking, asset management and insurance industries

## Key Modules:

**Investment Advisory** – supports the investment advisory process – client profile generation, financial planning, simulation and asset allocation proposals, as well as the monitoring of clients' investments

**Multichannel Personal Customer Service** – provides an integrated environment for personal advisors for comprehensive service of their customers in channels from personal contact to phone or video communication

**CRM & Marketing** – helps to manage the customer life cycle and supports marketing via diversified contact channels and listening to VoC in coherency of CRM strategy

**Portfolio Management** – managing client's assets by executing investment decisions, up to date information pertaining to the managed assets as well as swift integration with products suppliers and market data providers

**Credit Process Management** – flexible loan process management that enables non-IT employees to create or modify financing product processes and executing their rollout on production in extremely short time

**Online Private Banking** – provides the customers with an ergonomic platform for online day-to-day banking operations, investment assets management and communication with personal advisor

**Online Investment Assistant** – supports the client in the self-assessment process providing recommendation on the optimal asset allocation compared to the current client portfolio

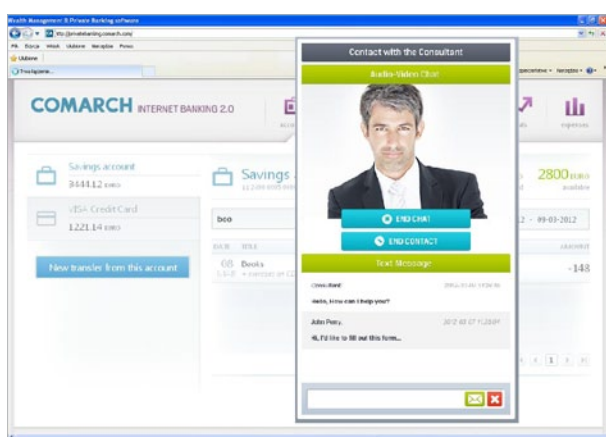

**Investment and Trading** – supporting the client self-trading process on the investment products and asset allocation simulations for new investment opportunities

**Mobile and Tablet Private Banking** – enables clients to manage their investment assets and fulfill their day-to-day banking needs through mobile devices and using all features of smartphones (i.e. multitouch, camera, NFC, GPS)

**Portfolio Reporting** – generating client's report of the highest level, which includes: value, profitability and risk of the client's investment / pension product presented on client portal or mobile devices

\*customizable  
**modular structure**

\*easy integration  
with your business and technology

\*advanced **channel specific** security
