## Comarch competencies for Silicon Labs

## Recommendation

” *Comarch has provided Silicon Labs with development services on a variety of application development projects for more than 7 years, and we have always found the company's work to be very high quality. Project tracking is clear and accurate, and communication has been direct and transparent. We have always been able to trust their team of developers, who have deep expertise in embedded software and mobile application development. I would highly recommend Comarch as a trusted services partner.*
