

COMARCH

COMARCH
ANTI-MONEY LAUNDERING

MONITOR TRANSACTIONS WITH
UNPARALLELED SPEED AND PRECISION

Comarch Anti-Money Laundering

Who can benefit

Comarch Anti-Money Laundering is an AI-powered transaction monitoring solution dedicated to financial institutions obligated to investigate and report suspicious transactions to financial regulatory authorities.

Modules

Anomaly detection

Instantly find new suspicious patterns of customer behavior before you are penalized or forced to laboriously re-analyze historical data.

Risk ranking

Calculate money laundering risk scoring for a specific customer to prioritize your analyses, and choose not to analyze cases under a certain risk threshold.

Administration & monitoring

Gather statistics, analyze results and monitor the solution's performance. Fast and easy.

Reasons to own

Less false alarms, more insights

Dots connected faster and better than any human can.

Risk-based approach

Measures to prevent money laundering always corresponding with the risks identified by your institution.

No need to replace your AML system

Quick and easy integration with banking systems.

State-of-the-art technology

AI-based, self-improving solution that never gets out-dated.

Selected capabilities

Deep analysis

Comarch Anti-Money Laundering optimizes the existing AML processes by significantly enhancing the effectiveness of most commonly used – and inefficient – rule-based approaches.

Self-improvement

One of the most important features of Comarch Anti-Money Laundering is the ability to learn from historical examples, or else: discover hidden patterns allowing to spot and understand relationships and similarities between financial data.

“Set it and forget it”

Comarch Anti-Money Laundering takes the burden of performing routine tasks off bankers' shoulders, reduces the total time it takes to analyze alerts, and allows the bankers to focus on more demanding and complex challenges.
