The accounting principles and methods of calculation adopted for the preparation of the Consolidated Financial Statements covering the twelve months ended the 31st of December, 2023, are consistent with those

described in the audited Consolidated Financial Statements of the Comarch Group prepared in accordance with IFRS for the year ended 31st of December, 2022 (Note 2 and Note 3 of the Consolidated Financial Statements of the Comarch Group prepared in accordance with IFRS for the year ended 31st of December, 2022).

In the Interim Financial Statements, costs that arise unevenly in the financial year are included or deferred only if the above costs should be included or deferred at the end of the financial year.

Interpretations to standards applied in 2019 for the first time and continued in the next years

▪ MSSF 16 Leasing

The IFRS 16 standard was published on the 13th of January, 2016, and is effective for annual periods beginning on or after the 1st of January, 2019, or later.

The Comarch Group plans to implement the application of the IFRS 16 standard retrospectively, with the combined effect of the first application of IFRS 16 recognized as at the 1st of January, 2019, without restatement of comparative data.

The Comarch Group analyses all concluded contracts in terms of meeting the criteria for considering them as leasing contracts according to IFRS 16. The Comarch Group to among the leasing contracts subject to IFRS 16 includes lease agreements for buildings and office space, the right of perpetual usufruct of land, leasing of means of transport and leasing of computer equipment

For contracts concluded for a definite period, the Comarch Group has adopted a lease period consistent with the lease agreement period, unless circumstances indicating the use of the option of extension or termination were known. Contracts concluded for an indefinite period with a notice period shorter than 12 months are not subject to measurement according to IFRS 16 (except for the agreement for lease of the stadium in Krakow at street Kałuży 1, which was valued according to IFRS 16 due to the strategic nature of rented property, and for which the Comarch Group accepts a 5 years lease period). The estimated value of liabilities resulting from other agreements concluded for an indefinite period for a period of 12 months amounts to approx. PLN 1611 thousand. Contracts of lease for an indefinite period with a notice period longer than 12 months the Comarch Group has not identified.

In accordance with the IFRS 16 Leasing standard, the Comarch Group has implemented uniform accounting principles that require lessees to recognize assets and liabilities for all lease agreements, taking into account the exceptions listed in the standard. The Comarch Group recognizes the right to use the asset together with an appropriate leasing liability determined in the amount of discounted future payments during the lease term. Instead of the previously included in the costs of the basic activity of fees for the use of leased assets,

depreciation calculated on the value of the asset due to the right of use was introduced. Depreciation is allocated according to production costs, overheads or selling costs. Instead of the interest paid on the current leasing instalments included in the financial costs, interest accrued on the leasing liability was introduced. Assets due to the right of use are amortized on a straight-line basis, whereas lease liabilities settled by the effective interest rate (the lesser interest rate of the lessee).

The lessee's marginal interest rate for a given leasing contract was determined as the sum of the risk-free rate depending on the currency and leasing period, the credit margin adjustment and the specific adjustment for the leased asset. The level of marginal interest rates applied by the Comarch Group is between 1.3% and 10.01%.

The implementation of IFRS 16 will have an impact on financial ratios calculated on the basis of the Comarch Group's financial statements, including those that are covenants in loan agreements concluded by the Comarch Group. The Comarch Group has excluded the impact of changes resulting from the implementation of IFRS 16 on the calculation of covenants in all loan agreements. The Management Board of the Comarch Group informs that it does not see any risk of exceeding the admissible values of covenants resulting from loan agreements concluded by the Comarch Group also in a situation when the data taking into account the application of IFRS 16 were used to calculate the value of covenants.

As of the balance sheet date of the 31st of December, 2023, the value of the right-of-use asset in the Comarch Group was PLN 85 478 thousand, and the value of the lease liability was PLN 90,387 thousand. The value of depreciation on the right-of-use asset in the 12 months of 2023 amounted PLN 23,517 thousand. The value of interest on lease liabilities in the 12 months of 2023 amounted PLN 3,205 thousand.

The Comarch Group excluded from the valuation by IFRS 16 short-term contracts and agreements on low-value assets, i.e. with an initial value not exceeding USD 5,000. The use of the above simplifications by the Company obliges it to apply them throughout the standard's validity period. The applied simplifications are documented with appropriate accounting policy provisions. The simplifications applied are documented by the corresponding provisions of the accounting policy. The cost associated with short-term leases and leases of low-value assets in the 12 months of 2023 was approx. PLN 387 thousand.

3. Notes to the Consolidated Financial Statement

3.1. Reporting by Segments for the Twelve Months of 2023

In the Comarch Group, business segments are basic type of operating segments, and geographical segments are the supplementary type of operating segments. The operations of Comarch's subsidiary units comprise the following types of activities:

- the sale of IT systems and services, including production of software for medicine sector, as well as sales of IT hardware (hereinafter referred to as the "IT segment"),
- professional sports (hereinafter referred to as the "Sport segment"; MKS Cracovia SSA,
- investment activity on capital market and activity in relation with real estate investment, (hereinafter referred to as the "Investment segment"),
- activity in relation to medical services (hereinafter referred to as the "Medicine segment").

IT Segment has a dominant share in sales revenue, profits and assets. IT Segment is divided into the DACH (Germany, Austria and Switzerland) market, Polish market and other markets according to the specific character of the activity in the segment.

Due to the geographical business division, the Comarch Group defines the following market segments: Poland, DACH region (Germany, Austria, and Switzerland) and other countries. The Sport Segment, Medicine Segment and Investment Segment operate exclusively on Polish territory. Due to the fact that only the IT Segment operates abroad and, at the same time, costs incurred in the IT segment are largely common for export and domestic sales, it is pointless to define separate results for export and domestic activities.

The Comarch Group's sales are highly diversified and there is no dependence on a single customer. During the twelve months of 2023, sales to no single counterparty exceeded 10% of the Comarch Group's total sales. The distribution of sales revenues generated by the Comarch Group over 2023 was as follows: 23% of annual sales were realized in Q1, 22% in Q2, 25% in Q3 and 30% in Q4. Over the course of 2024 the Comarch Group expects a sales revenue distribution similar to that of 2023.

Comarch S.A. has three unused permits to operate in the Special Economic Zone in Krakow:

- obtained in 2013, its validity term has not been specified;
- obtained in February 2016, its validity term has not been specified;
- obtained in March 2016, its validity term has not been specified.

At the same time, the Company notes that on the 13th of July, 2013. The Council of Ministers adopted regulations extending the term of special economic zones in Poland until 2026.

Pursuant to IAS 12, unused tax relief as at the 31st of December, 2023, constitutes a deferred income tax asset. The company, while operating in the SEZ, originally had five permits. An investment relief due to the permit obtained in 1999 was fully utilized (its period of validity was the 31st of December, 2017). The investment tax relief under the permit obtained in 2007 was fully utilized. Limit of the unused investment tax

relief under the permit obtained in 2013, regarding investment in the office building SSE6, amounted to approx. PLN 16,318 thousand as at the 31st of December, 2023, (after discounting at the permit date). Limit of the unused investment tax relief under the permit obtained in March 2016, regarding investment in the office building SSE7 in Cracow, amounted to approx. PLN 22,809 thousand as at the 31st of December, 2023 (after discounting at the permit date). The company has no intention to use the permit obtained in February 2016 due to the fact of receiving (after obtaining it), co-financing of investment outlays to be incurred in this permit - to eliminate the risk of using two forms of public aid related to one investment

During the 12 months of 2023, the Comarch Group settled in part a deferred tax asset related to temporary differences that was established on the 31st of December, 2022, deferred tax asset relating to temporary differences in the amount of PLN 5,143 thousand, and created an asset for temporary differences in the amount of PLN 5,941 thousand, as well as dissolved an asset for tax loss in the amount of PLN 453 thousand. The total effect of all the above-described operations on the net result in the reporting period was + PLN 345 thousand.

Deferred income tax assets are determined in the amount anticipated to be deducted from income tax in the future, due to negative temporary differences and income tax relief in connection with conducting business activity in SEZ, which will cause in the future a reduction in the basis for calculating income tax and a tax loss deductible, determined taking into account the precautionary principle. Due to the above principle, assets from operations in SEZ are set only in the annual time horizon, taking as base to determine the average income from zonal activity from the period of 3 years, selected from the five-year period (including the year for which the report is drawn up), after rejecting two extreme values. The asset according to this methodology was determined as at 31st of December, 2023.

In the 12-month period of 2023, the Zone Activity Asset created as of 31st December, 2022, in the amount of PLN 8,415 thousand was dissolved, and an asset was created as of 31st of December, 2023 in the amount of PLN 6,691 thousand. We would like to point out that the recognition of the Asset does not affect cash flows in the parent company or the Comarch Group (both the recognition of the Asset and its realization). Therefore, this operation is only accrual in nature and results from the Group's application of International Financial Reporting Standards to prepare the Comarch Group's consolidated financial statements.

The total impact of asset changes on the Comarch Group's result in the 12 months of 2023 was -PLN 1,379 thousand.

<i>Charged to equity</i>	<i>5,430</i>	<i>5,430</i>
<i>Charged to financial result</i>	<i>51,332</i>	<i>47,290</i>

In connection with the valuation of the net assets of CCF FIZ, the provision was decreased by PLN 347 thousand in the 12 months of 2023. At the same time, a provision for deferred tax due to temporary differences was created in the amount of PLN 9 774 thousand and released on the same account in the amount of PLN 5 385 thousand. The total impact of the above-mentioned operations on the net result in the period of 12 months of 2023 amounted to minus PLN 4,042 thousand.

Total changes in the deferred income tax resulted in a decrease in result of PLN 5,421 thousand.

In relation to Comarch Healthcare S.A., a deferred tax asset was not created due to the lack of possibility to make the reliable estimates of the income tax allowing the use of existing tax loss from previous years. If the asset was created, the amount of the asset would be of PLN 4,769 thousand.
